

59th Edmonton
Snow Promises
To Break Marks

Under a typical "Sunny Alberta" sky of bright blue, flecked with fleecy clouds, and with a cool northerly breeze tempering the rays of the sun which blazed down over the city, Edmonton's 59th annual exhibition threw open its gates to the public at noon today for one of the best opening days in the history of the exhibition.

From the time the gates were thrown open the turnstiles were kept busy, and before an hour had passed the midway was jammed, the hot dog stands and other "grease joints" were doing a roaring business, and the blare of bands, the shouts of the midway barkers, the cries of the souvenir vendors, postcard photographers, the high pitched notes of a steam call, "all and the invitations of the ticket sellers to "get your tickets here for the best show on earth" indicated that Edmonton's exhibition this year was off to another record breaking start.

Just on opening day, youngsters formed the big bulk of the midway crowd, but into the grandstands were the pony players, and both grandstands and grounds held capacity crowds by three o'clock. Featuring "Children's Day," Mr. F. W. Abbott announced last week that all children under 15 years of age would be admitted to the grandstand free, and to the grandstand for 10 cents.

In addition, midway attractions reduced the prices of their rides and shows to the youngsters, a nickel here and a dime there, and even as the clock struck six, the result was an opening day crowd of more than 100,000 people.

BREAK ALL RECORDS
All records are being broken by the band if the present rule is any indication, said Manager Abbott at 2 o'clock, and even as the clock struck seven, the band was being urged through the gates, while special cars, street cars and buses lined the roads leading to the grounds.

In the agricultural manufacturers and auto buildings crowds were in evidence all afternoon. District exhibits also drew their share of sightseers and the cattle, horse, swine and sheep barns were much frequented.

Edmonton - Born Boy Is Barred Mother In U.S.
WINDSOR, Ont., July 12.—Seven-year-old Colin Fraser is a notable child in the United States because he was born in Edmonton while his parents were in Canada.

Mandate Displeases: Many Killed In Holy Land Clash
JERUSALEM, July 12.—Between six and 20 persons were killed and wounded in the upper Jericho district Friday in a clash between troops and demonstrators demanding a complete mandate withdrawal from the Syrian republic, according to a statement from the Syrian republic.

MOSCOW, July 12.—A Soviet airplane flying toward North America today was rapidly approaching the North Pole. At 2:17 p.m. (9:17 a.m. M.S.T.) the plane reported its location by wireless as 70 degrees north latitude, about 1,400 miles from the North Pole. It was not expected to reach the Pole until about 24 hours after the report.

Second flight of Soviet airmen from Moscow to San Francisco, over the North Pole, will follow the same route taken by the first flight three weeks ago. It was reported today that the airmen, who were en route to the Rocky Mountains to Queen Charlotte Island, were not to touch Edmonton.

CHINESE-JAPS SUFFER HEAVY LOSS IN WAR
Tanks, Artillery, Machine Guns Used on Peiping Front
PEIPING, July 12.—Reliable Chinese sources said today the outbreak between Chinese and Japanese troops had been halted by an armistice concluded by local authorities.

PEIPING, July 12.—Heavy losses in fighting between Japanese and Chinese troops in three villages west of Peiping with tanks, artillery, machine guns and rifles used, were reported today by Chinese sources. Chinese reports said "furious fighting" raged in the vicinity of the walled city of Wanghsien for half an hour, ending shortly before 11 a.m. (11 a.m. Sunday M.S.T.).

GAPS WIDENED IN PLAN FOR NON-INTERVENTION
LONDON, July 12.—Gaps widen in the Spanish non-intervention scheme, after tomorrow, unless there is a last-minute change, the British will be little more than a paper force, with a series of national decrees that have proved ineffectual in the past.

LOCAL GOLFERS COTTON LEADS ARE DOING WELL SHUTE TWO UP IN SASKATOON
SASKATOON, July 12.—Bob Reid, young Regina golfer, won the 1928 Saskatchewan amateur championship today in a 36-hole match at the Saskatoon Country Club.

Ontario Visitor Never Heard of Quintuplets
BRATFORD, Ont., July 12.—The visitor from Oregon wanted to know how far it was from Stratford to Niagara Falls. The policeman said it was 100 miles to Niagara Falls and Niagara Falls was the visitor's destination at Callander while he was in the hospital.

Wheat Crop To Set Biggest Mark
ROME, July 12.—The world's wheat crop will be 20 per cent greater this year than last, according to a statement by the International Institute of Agriculture, which said the world's wheat crop will be 20 per cent greater this year than last.

WINDSOR IN QUANDARY ON COUNSEL FEE

City Solicitor May Face Action to Recover in Debt Adjustment

WINDSOR, Ont., July 12.—City council will on Tuesday determine whether or not any legal action will be taken to recover \$17,500 owed to fees by Bruce J. S. MacDonald, former city solicitor, for work done in connection with the financing of Windsor's debt of \$17,500 in interest and \$60,000 in arrears of principal.

NEED FOR MONEY
Upon information that Mr. MacDonald had accepted the money, the Board of Control had several private meetings on the matter, giving him the alternative of paying the money in 10 days, or resigning. When he refused to pay over the whole of the money, he offered to give only \$6,000, it ended in the city council's decision to accept the resignation.

CITY COUNCIL URGED SETTLE POWER SUPPLY
John Blue Asks Immediate Action to Secure Continuous Service
Need of immediate action to "to secure the city's power supply" was urged by John Blue, secretary of the Chamber of Commerce.

SPANISH AIR FLEET SCATTERS DEATH BOMBS
MADRID, July 12.—A huge Spanish government air fleet based over Spanish lines west of Madrid today scattered a 12-foot raid of the insurgent line west of Madrid.

Jack Curley, Noted Promoter, Is Dead In New York Home
NEW YORK, July 12.—Jack Curley, a leading sports promoter, died suddenly at his Great Neck, Long Island, home today, victim of heart disease. He was 61, a veteran of 38 years in sports promotion.

Premier King To Broadcast To Speech July 19
OTTAWA, July 12.—Premier Mackenzie King will broadcast a message to the Canadian people on July 19, 7:30 p.m. M.S.T. It was announced today by the Canadian Broadcasting Corporation.

Blast Hurls 3 Through Doorway: Plant Is Set Afire
WINDSPRING, July 12.—Explosion in the transformer room of an annex to the power plant at Windspiring today hurled three workmen 20 feet through a doorway, set the plant on fire and resulted in a 40-minute power breakdown in central Windsor.

Another Holdup

R. Bruce Baxter, Montreal, vice-president of the Calgary Power Company, now appearing before the city council, is a former resident of Edmonton, being at that time deputy minister of the Alberta government telephones department.

Mr. Baxter is a very able business executive who successfully negotiated five years ago the recently expired Calgary Power agreement with Edmonton which cost Edmonton about \$125,000 a year.

The new and very plausible agreement Mr. Baxter proposes now is to cost \$45,000 a year. The claim advanced is that it is cheaper for the city to buy surplus power from the Calgary Power Company than bring the city power plant up-to-date to meet present and future requirements of Edmonton power and light consumers.

Argument is also advanced that although our own power plant has earned and paid into the city treasury millions of dollars of net profits, the city has no money on hand to modernize and replace outworn equipment at the power plant.

What more damaging statement could be made against the utter lack of ordinary common sense practiced by the city hall administration than its failure to protect a big city revenue-producing asset from being bled white and left in such a crippled physical condition.

Public ownership should mean service at COST plus depreciation and protective reserves adequate to maintain plant and facilities at the highest possible state of efficiency in rendering good service to the citizens who make use of the services offered.

What has become of the millions of dollars of net profits earned by our power plant? These profits were placed in the city treasury and used to pay unreasonably high bond interest rates and to reduce property taxes, which left no cash reserves to protect the highly profitable power plant.

Now we are told it will be cheaper to allow our power plant to remain "down at the heel" and pay the unused surplus power of the Calgary Power Company until such time as we can get money AT SOME FUTURE DATE!

Any proposal that the city's own power plant should be left in its present state should be dismissed without hesitation. All that the aldermen should consider is a protective standby agreement which every Edmonton power consumer must pay as much as a fire insurance policy owing to the stupidity of our city hall administration permitting such a serious and hazardous condition to develop in our power plant.

A few months ago Jules E. Fortin, of the Bond Dealers' Association, sold our city administration the notorious Fortin Plan of spreading the city's debt (\$32 million) over a period of thirty years which binds the city to pay every last cent on its present outstanding bonds at the ridiculously high and unreasonable interest rates of 4½, 5, 5½, 6 and 7 per cent.

Windsor, Ontario, a few weeks ago, settled with the Bond Dealers' Association to pay only half the interest rates Edmonton is paying. Windsor's agreement is for 1½, 2, 2½, 3, 3½ and 4 per cent interest on its debt of \$32 millions.

Windsor agreed to levy a tax rate of 40 mills while Edmonton must pay 55 mills or more for the next thirty years. There is not a home or business property in Edmonton that can continue to pay a tax rate of 55 mills and protect the owner's equity or maintain the present assessed value.

When the majority aldermen, James H. Ogilvie, Hugh John Macdonald, Walter Clevely, Elisha East, J. T. McCreath and A. Bisnet, broke their pre-election pledges and voted for the Fortin Plan, they tried to justify their betrayal by stating the Fortin Plan would release half the city's sinking fund (\$5 millions of bonds not in default) for immediate use TO SAVE AND PROTECT THE CITY POWER PLANT, extend the telephone services, relieve unemployment by putting men to work on a number of civic improvements, etc.

Are the citizens of Edmonton going to quietly submit to another Fortin style hold-up without vigorous protest?

FRANCE WARNED OF FASCIST PERIL
ROME, July 12.—France was warned today by Roberto Farinacci, former secretary of the Fascist party, that "millions of Fascists" were ready to give their lives to defend France and Italy, and that Spanish non-intervention agreement was a betrayal.

Police Seek Bandits
STURBOY, Ont., July 12.—Thirty policemen combed the Sturbovy district today for the bandits who stole the mail train. Sergeant Fred Davidson, wounded seven times when the bandits opened fire on the train, was among the police.

\$35,000 FIRE HITS OIL WELL IN TABER AREA

Exclusive to Edmonton Bulletin
CALGARY, July 12.—Disaster struck Sunday morning at Plains Petroleum number two, second well of Plains' five well program in the Taber area. The derrick, buildings and equipment were almost completely destroyed by a fire. The loss is estimated at more than \$35,000. The fire is believed to have started when sparks from a slide hammer being used on the derrick cellar ignited the heavy gas flow which had been encountered a few days ago. The fire was extinguished after the superstructure had been burned. One worker, L. Bennett, sustained badly burned hands. New machinery had recently been installed at the well.

The Plains number two well, at the time of the fire, was drilling below 2,300 feet, and it had been planned to run casing this week. Production levels were expected within a few hundred feet. A gas flow of one million cubic feet per day was encountered last Thursday. It is not yet known what steps will be taken to complete the Plains well. Plains one is standing unscathed, with casing run to the bottom. Drilling will be resumed within a few days for another seventy feet, where it is hoped good crude production will be obtained. A crude flow previously encountered was closed off and drilling proceeded with because of a water intrusion.

Plains three was scheduled to be installed in over the weekend. Equipment is being moved to the location of the number three well, which are soon to go under way.

Ball Magnate Dies

PHILADELPHIA, July 12.—John T. Shaw, 66, former president of the Philadelphia American Baseball League Club, died today at a convalescent home.

Basque Troops Badly Beaten

A heavy counter attack by Basque troops in northern Spain in order to regain high ground along the Bay of Biscay front was repelled by rebel forces, an insurgent report claims. The rebel troops have been slowly moving toward the "iron ring" in which

the Basques are relying, and which is one of the last positions for the Basque capital of Bilbao. The Basque soldier above shows in his face the determination he and his comrades are showing in their battle against the forces of General Emilio Mola.

Estranged Monarchs Appear Formally In Church Parade

ROME, July 12.—Former King Alfonso XIII of Spain and former Queen Victoria appeared together in a church parade in Rome Saturday night for the first time in six years, stimulating

reports they were contemplating a reconciliation. They were estranged shortly after the Spanish monarchy fell in 1931.

Reading a royal procession, they entered the church of San Roberto Bellarmine as patrons for their visit. Prince Alvaro of Bourbon-Orléans, on his marriage to Carla died here Friday from injuries received when struck by an automobile

Aged Three Hills Man Killed By Vancouver Auto

VANCOUVER, July 12.—An inquest into the death of William Elmer, 78, of Three Hills, Alta., who died here Friday from injuries received when struck by an automobile

INMATE BLAMED FOR DEATH OF HOSPITAL AIDE

PONOKA, July 12.—A coroner's jury on Saturday reached a verdict that Wilfred Potter, 28, attendant at the Ponoka mental hospital, died of skull fracture caused by blows struck by a refractory patient with a piece of wood. Attendants and other employees of the hospital were cleared of blame. John Liebman and Marvin Roseberry, attendants who were with Potter in the "refractory" ward, where there were 204 patients, stated that most of the patients were trustworthy most of the time. The patient who had struck Potter, they said, did not seem to know what had happened after it was over. Potter died at the University Hospital, Edmonton, Friday. He had planned to go on holidays this week. Dr. E. A. Braithwaite, chief provincial coroner, conducted the inquest.

TWO TORONTO BROKERS KILLED

WATERDOWN, Ont., July 12.—Two Toronto stock brokers were killed when their automobile was wrecked against a tree near here last Saturday. They were Edward J. Luttrell, 63, and Herman Lang, 75. George Slack, 56, was seriously injured when hurled out the car door.

Mr. Ellis and his wife arrived in Vancouver July 1 for a two-month visit. He had lived 21 years in Three Hills, where until he retired eight years ago he was secretary of the Alice coal mine. He is survived by his widow and three sons in Three Hills. William Thomas and John.

CANADIAN NICKEL in the Home

Half a mile underground, in the mine of The International Nickel Company of Canada Limited, near Sudbury, Ontario, electric locomotives haul the cars of ore to the shaft.

How the GREAT CANADIAN NICKEL MINES help to give you CRYSTAL CLEAR HOT WATER

FROM THOUSANDS OF TAPS in thousands of Canadian bath-rooms, kitchens, and laundries, pour thousands of streams of hot water a dozen times a day. In many, the hot water is frequently reddened with rust, impure, and undesirable for personal uses or for washing fine clothes. In other homes, the hot water is clean, clear, sparkling. It comes from tanks which gleam like silver pitchers—which stoutly resist rust and corrosion, and are good for a lifetime. These are made of Monel Metal, that amazing alloy of Nickel and Copper which comes from the great Nickel mines near Sudbury.

These Canadian mines comprise an industry underground—another vast industrial development above ground.

Half a mile beneath the earth's surface narrow gauge tracks wind for miles through subterranean tunnels supported by timber from Canadian forests. Nickel Steel drills bite into the ore wall—a loud report as the charge is fired,

and a cascade of ore rumbles down the chute into waiting ore cars. Down the tracks the loaded ore cars drone to the giant jaw crushers where the ore is crushed, then whisked to the surface of the ground at 3,000 feet a minute.

Millions of dollars are paid each year by this great industry for wages, for timber and steel, for freight and supplies—in order that an ample supply of Nickel may be available for the thousands of purposes for which it is used. When you buy articles of Nickel or containing Nickel you help to increase this circulation of money from the Nickel mines through practically all industrial channels in our land, even to the man who is engaged in making shoes or candles, growing wheat or live stock or felling timber in forests.

Ask your plumber for prices on Monel Metal hot water tanks. Plumbers and public utility companies are also able to supply automatic water heaters with Monel Metal tanks.

Write for your free copy of "The Story of Nickel"—an interesting booklet dealing with the history and development of Nickel.

THE INTERNATIONAL NICKEL COMPANY OF CANADA LIMITED
25 KING STREET WEST, TORONTO

Your Paper Boy Is a Responsible Young Business Man

Have you ever stopped to think that the carrier salesman who conscientiously delivers your Edmonton Bulletin to your doorstep every day is just as much a business man as the storekeeper from whom you buy your groceries?

He buys his papers at wholesale, sells them to you at a fixed retail price (20c a week) collects once a week. Then he figures up his profits every Friday.

That's why he appreciates the promptness with which his customers pay him when he first calls to collect.

Thank you for your promptness.
